

Product Description

Best Quality Lowest Price Nootropics Spermidine Trihydrochloride Powder CAS 334-50-9

What is Spermidine Trihydrochloride?

Spermidine is a polyamine. Widely distributed in living organisms, it is synthesized by the biosynthesis of putrescine (butylenediamine) and adenosine methionine. Neuronal NO synthase (nNOS) can be inhibited. Binds and precipitates DNA; It is also used to purify DNA binding proteins. T4 polynucleotide kinase activity is stimulated. Retarded protein aging.

Spermidine Trihydrochloride Benefits

1. Spermine can prevent age-related memory decline.
2. Spermine can delay the onset of dementia.
3. Spermine can delay the senescence to promote the degradation of the protein synthesis or stop them.

Spermidine Trihydrochloride Dosage:

The manufacturer of noopept recommends taking dosages ranging from 5 - 10mg for cognitive deficiency, but for enhancement the optimal dose is unknown. Sublingual noopept is absorbed better, which suggests lower dosages can prove effective for cognitive enhancement.

Product name	Spermidine trihydrochloride
Melting point	257-259 °C(lit.)
solubility	H2O:1 Mat 20 °C
Color	white
density	d23 1.166; d20 1.171
PH	3.0-6.0 (25 , 1M in H2O)
Water solubility	Soluble in water (100 mg/ml), and ethanol.
storage temp.	room temp

Certificate

An ISO 9001 & GMP qualified company, we are mainly specialized in producing high quality but low price Pharmaceutical intermediates, APIs and other fine chemicals & cosmetics products which related to human and animals medicines as well as additives in gas & oil field, almost half of the goods are for exporting. What's more, we provide the OEM (customize) manufactures, if you can't find materials from the world, then tell us, we will research and produce in our high-tech equipped laboratory. We are dedicated to satisfying our customers with our products and services

1. We can provide you with ten thousands of products of different levels.

2. We offer convenient one-station purchasing service.

(1) Any inquiries will be replied within 12 hours.

(2) Dedication to quality, supply & service.

(3) Strictly on selecting raw materials.

(4) Reasonable & competitive price, fast lead time.

FAQ:

Q: How to confirm the product quality before placing an order

1) You can get free samples of some products, just pay the basic fee for us.

2) You can also send us the specifications or your requirements, and we will customize the product for you.

Q: How long is your delivery time

A: Generally 1-3 workdays after order confirmed

Q: What is the regular MOQ for your products

A: Our MOQ starts from 1g and generally starts from 10g. For other low value product, our MOQ starts from 100g and 1kg.

Q: How do you treat quality complaint

A: All our products are strictly tested by our QC, and confirmed by QA; unqualified material will not be released to customer.

In case any quality problem is confirmed to be caused by us, we will replace the goods or refund your payment immediately.

Q: What's your terms of payment

A: T/T, Western Union, MoneyGram, telegraphic transfer and bitcoin
